Discover & Align Your Vision, Mission, Objectives & Tactics

Why do this?

The fundamental building block for successful businesses, that have the happiest, most engaged and productive employees, is a clear, easy-to-understand, and well-communicated strategic plan. But pulling that together yourself can be difficult.

Having a facilitator to help guide the discussion, ask some additional challenging questions and enable you to fully participate, helps you deliver a more aligned and robust result in the end.

How you'll get there

Together we'll follow a simple, but effective process walking through the VMOST pyramid, which will bring about a clear vision, a compelling mission, a set of well-defined and high-level objectives, a linked set of headline strategies that will deliver those objectives and the means for the organisation to pull together a detailed and achievable tactical plan, that focuses on the doing the things that matter.

What you'll get as a result

Across a 2 day facilitated face-to-face workshop we will produce a draft set of tools to articulate :

- Vision How you ultimately want the business to be seen
- Mission The immediate guest it is now on
- Objectives A prioritised set of KPIs that will show you've got there
- Strategies The direction you'll take to achieve your Mission & Objectives
- Tactics The specific actions to take to achieve your Mission & Objectives
